

UnivIS - Raumplan F218

Aktuelle Informationen
zur Raumbelugung und
Anwesenheitserfassung
während der Pandemie:

The image shows a large, dense grid representing the room plan for F218. The grid is composed of many small cells, each representing a room. The cells are arranged in vertical columns and horizontal rows. The text within the cells is very small and difficult to read, but it appears to be a list of room numbers and their corresponding occupancy status or event information. The grid is divided into several vertical sections by thin lines, suggesting different areas or wings of the building.

Änderungen der Raumbelugung nur nach Absprache mit
Raumverantwortlichen Monika Stieg (App. 2551,
monika.stieg@sowi.uni-bamberg.de)

Einzeltermine vom 11.2.2006 bis 13.5.2024
Nur einmalige Veranstaltungen dargestellt,
weitere Einträge siehe UnivIS
