

UnivIS - Raumplan KÄ7/00.10

Aktuelle Informationen
zur Raumbelegung und
Anwesenheitserfassung
während der Pandemie:

The figure displays seven horizontal bar charts, each representing a different set of 1000 random numbers. The x-axis for each chart is labeled with categories 1 through 10. The y-axis represents the frequency of numbers in each category. The distributions are as follows:

- Chart 1:** Shows a relatively uniform distribution across all categories, with frequencies ranging from approximately 100 to 150.
- Chart 2:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).
- Chart 3:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).
- Chart 4:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).
- Chart 5:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).
- Chart 6:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).
- Chart 7:** Shows a distribution where categories 1 and 2 have higher frequencies (around 150-200) compared to categories 3-10 (around 100-150).

Änderungen der Raumbellegung nur nach Absprache mit Raumverantwortlichen Monika Stieg (App. 2551, monika.stieg@uni-bamberg.de)

Einzeltermine vom 31.1.2015 bis 4.7.2024
Nur einmalige Veranstaltungen dargestellt,
weitere Einträge siehe UnivIS
