

UnivIS - Raumplan Online-Meeting

Aktuelle Informationen
zur Raumbelegung und
Anwesenheitserfassung
während der Pandemie:

The treemap visualization displays a hierarchical structure of data, likely representing a project or organizational chart. The root node is 'Data' (100% of the total area). It branches into 'Training' (50%) and 'Testing' (50%). 'Training' further branches into 'Feature Engineering' (25%) and 'Model Training' (25%). 'Testing' branches into 'Evaluation' (25%) and 'Deployment' (25%). Each of these branches into numerous sub-nodes, with the largest sub-nodes being 'Feature Engineering' (25%), 'Model Training' (25%), 'Evaluation' (25%), and 'Deployment' (25%). The treemap uses a color scheme where each major branch is a different shade of gray, and sub-nodes are further differentiated by lighter shades and patterns.

Änderungen der Raumbelegung nur nach Absprache mit Raumverantwortlichen	wöchentliche Lehrveranstaltungen vom 12.4.2021 bis 16.7.2021 Einzeltermine vom 12.4.2021 bis 16.7.2021 Stand: Freitag, 26 Juli 2024 13:32:53
